

## **Note on quotes for grass cutting in parish**

Contractor A: £280 for everywhere (not the common), as and when needed, or £180 for areas not done for free by volunteers. I think this would be at least 9 or 10 cuts from April to November. Total from £1,620 (9 x £180) to £2,800 (10 x £280).

Contractor B: £120 for everywhere (not the common), every 3 weeks, from April to November - 11 cuts. Total £1,320 (in addition to the first cut which has already been done and paid for -- £140 including debris clearance).

Please note that half the cost of grass-cutting relates to the Village Hall and will therefore be met from the Village Hall Charitable Trust funds.
